

## School Report Card

Report cards are an important source of information about school performance and accountability. They allow schools to compare data in a consistent way and highlight opportunities for improvement.
This report card will show not only the achievement of students overall, but also the progress that disaggregated groups are making in closing achievement gaps. Report card data help Pennsylvania school districts and the Pennsylvania Department of Education focus on specific groups of students who are currently not meeting academic standards.
The report card is designed to ensure that the public is fully informed about performance, and to promote broader participation and better decision-making by providing a shared source of performance data. This federal initiative is based on the idea that a well-informed public plays an important part in school improvement.

## Using Report Card Data

Report cards should be used to share information. Adequate Yearly Progress (AYP) is not measured by the strength of this report card. The data on this report card may not match AYP data published for this school.

## This report contains:

- Attendance data

Attendance rates are displayed for the most recent school year.

- The Accountability Report This section shows the school's performance compared with the goals set by No Child Left Behind. Student results from the Pennsylvania System of School Assessment (PSSA) are listed by disaggregated group and by Performance Level.
- The Assessment Report

Here you can compare two years of PSSA, PSSA-M, and PASA academic performance and participation data for this school. These results are displayed by grade, subject, and disaggregated group.

- Teacher Qualifications

This section includes both numbers and percentages of teachers in the school who are highly qualified or hold emergency certification.

## Attendance Data

## District BLAIRSVILLE-SALTSBURG SD School BLAIRSVILLE EL SCH

Pennsylvania's accountability system includes school assessment based on attendance rates. Attendance rates measure the number of days that a student was both enrolled and present in the school. Research shows that a strong relationship exists between regular attendance and academic performance.

## Attendance Measures

- Indicates fewer than 10 students in a group. To provide meaningful results and to protect the privacy of individual students, data are printed only when the total number of students in a group is at least 10 .
${ }^{1}$ Attendance measure is a goal of $90 \%$, or any improvement from last year.
${ }^{2}$ There can be overlap among the groups since a student may belong to more than one of these groups.

## Accountability Report

## District BLAIRSVILLE-SALTSBURG SD <br> School BLAIRSVILLE EL SCH

The purpose of this section of the report card is to show how students performed compared with the goals of No Child Left Behind. The participation tables in this report include students who were enrolled in this school for any part of the academic year. The performance tables in this report include students who were enrolled in this school for a full academic year. These numbers may not match the results in the Assessment section of the Report Card.

## School Overall Results in Mathematics

This table captures participation and performance results of students overall and by disaggregated group who took the PSSA, PSSA-M, and PASA in Grades 3-5.

NOTE:
Percentages may not total 100 due to rounding.

## Assessment Report

## District BLAIRSVILLE-SALTSBURG SD School BLAIRSVILLE EL SCH

The purpose of this section of the report card is to show how students performed on the PSSA over the past two years in Mathematics, Reading, and Science. This data table captures this school's overall performance results and participation rates by disaggregated group and compares it to this school's results in the previous year. The table reflects all students taking the PSSA in Grades 3-8 and 11 who were in this school for any part of the academic year.
